**JOBE** 

# GETS YOU ON THE WATER

Jobe is for everyone. We are a community, a global movement, a family of real people, who are discovering the beauty of watersports. We create unforgettable #jobemoments for everyone since 1974. No matter who you are, no matter your age or size, no matter your background. When you want to get on the water, you will fit in our family. We develop our products with the greatest care and highest quality materials, every day again and again. This is what 'gets you on the water' means to us.

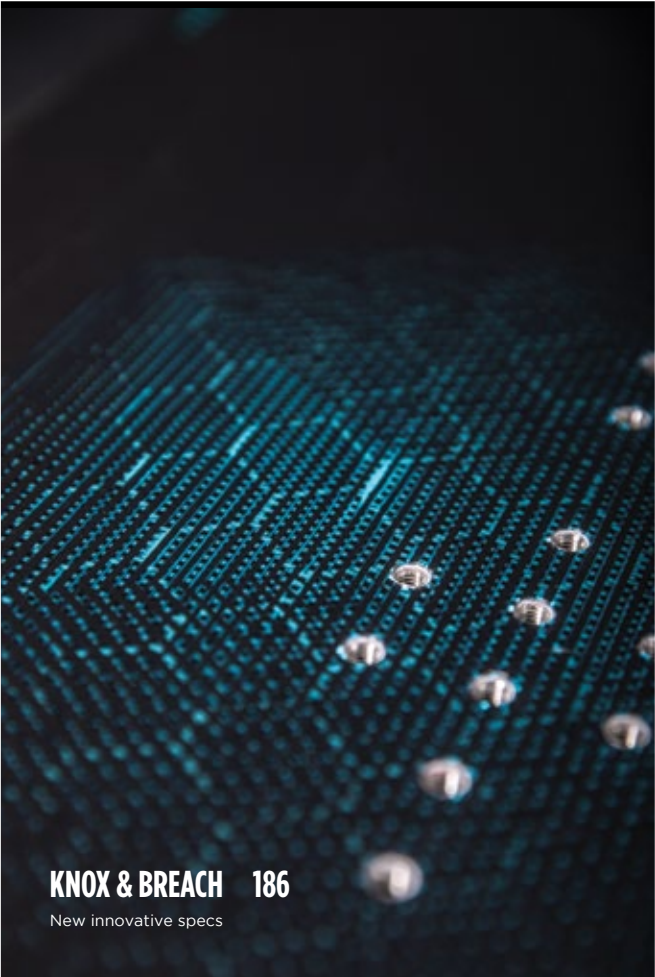

**Join our family and share in our love for watersports.**

## DISCOVER WHY THE WORLD LOVES JOBE TOWABLES

3y  
3 years  
Warranty

Experts say it's the combination of our high production standards and the use of high quality materials. We say it is because our towables are thoroughly tested and undergo multiple quality checks. Therefore we can guarantee the quality of our products with a 3 year warranty on every towable! Make sure you register your towable within 14 days after purchase online at [www.jobesports.com/happycustomers](http://www.jobesports.com/happycustomers)

## EXTRA SAFETY

Jobe towable tubes have extra durability and are extra safe because they consist of multiple air chambers. The combination with the Boston valve, which ensures air can only enter but not escape through the valve, makes Jobe towables a watersporter's favorite.

## KEY FEATURES

- **BIGGER SIZES** For stability on the water
- **BOSTON VALVE** Designed to resist high pressure
- **DOUBLE-STITCHED NYLON** for extra durability.
- **COMFORTABLE HANDLES** with neoprene knuckle guards.
- **QUICK ROPE CONNECTOR.**
- **NEOPRENE DECK PADS** for comfort and prevention of damage on the skin.
- **3 YEAR WARRANTY** after registration within 14 days after purchase on [www.jobesports.com/happycustomers](http://www.jobesports.com/happycustomers)

# FIND THE PERFECT TOWABLE FOR ALL YOUR WATERSPORTS NEEDS

Jobe offers the biggest towable range in the market and we've got something for everyone, from thrillseekers to those who want to chill. Check out our overview and find the perfect towable which fits your needs

THE NEW ELECTRIC INNOVATIONS OF WATERSPORTS

We designed a brand-new line of products for our Infinity Series which has some new innovations like our Cruiser and E-Duna. This new generation of watersports toys takes innovative state-of-the-art technology and brings it towards the water to be enjoyed by the masses.

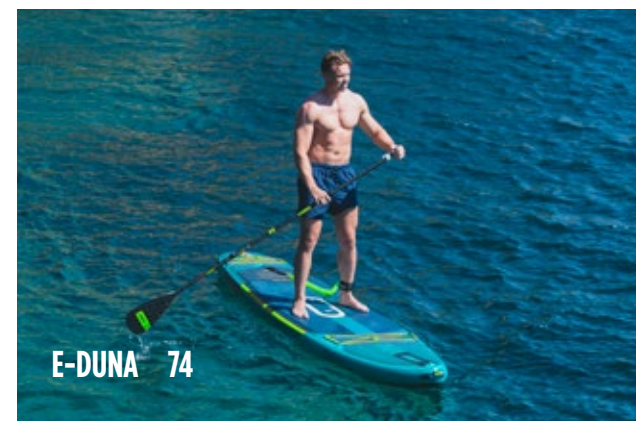

## EXTEND YOUR BOAT UNTILL INFINITY

Our infinity island is modular, so you can extend your yacht until infinity. Create a unique playground for the family: ideal to sunbath, do yoga, play around, or to dock your jet ski or stand up paddle board.

## MATCHING PRODUCTS

We take our Mix 'n Match Philosophy to heart and want to implement this in our whole range. This year, we have some excited new products which are great to match with your Infinity Series.

## CREATE YOUR OWN PLAYGROUND

This new innovation of our leisure collection is modular and more important; compatible! Create your chilling vibe with your favorite leisure product on its own. Or Mix 'n Match the collection together and build your very own Water Park!

Easily connect the Manta, Retreat and Switch together with the zippers and D-rings. You can attach the 3 unique products together, add an extra Manta or just zip 2 Retreats together - that's up to you! There are unlimited possibilities, so don't hold down your creativity. You can even attach your Chiller to it. Design an unlimited playground with your friends and family.

NEW ITEM

## WE BUILD THE FUTURE OF SUP

Jobe has more than 25 years of experience in water sports. The knowledge and experience we have gained over the years have created unimaginable synergies that allowed us to design the world's highest quality SUP boards, which are ready to perform. We don't let the past predict our future. That's why we are always continuing to do research about SUP. In that way we are sure we are able to develop better products and improve the sport for you.

### AERO SUP COLLECTION

When you don't live close to the water an inflatable paddle board is just way more convenient than a hardshell board like our bamboo and titan boards. Everything fits into one small waterproof backpack, which makes it easy to take it with you anywhere you go. Our inflatable boards are the lightest and stiffest on the market and..... we offer a 3 year warranty on all of our Aero boards.

### AERO PREMIUM SUP COLLECTION

In addition to our high standard collection we created a Premium series with even more luxury. The boards of this collection are slightly thicker and come with double stingers, which makes the board even stronger. They have a wider and larger deckpad that gives you more freedom of movement on your SUP and the package comes with a lighter, stiffer and better paddle; a 3-piece fiberglass paddle with 20% carbon elements. And there is even more..

### BAMBOO SUP COLLECTION

Our Bamboo boards are perfect when you live close to the water or when you have a lot of storage place. A great benefit is that you don't have to inflate the board before you get on the water. Also, a bamboo board is slightly faster and more responsive than an inflatable paddle board. And last but not least, the bamboo finish looks really luxurious.

### TITAN SUP COLLECTION

As strong as titanium: our ultra-strong boards from the Titan series. These boards can handle heavy impact and have one of the highest levels of buoyancy due to a durable soft EPS core wrapped in a monocoque fiberglass layup. Blended together with the world's strongest polycarbonate shell - created with vacuum molding - the Titan is developed to handle heavy impact. Blended together with the world's strongest polycarbonate shell - created with vacuum molding - the Titan is engineered to handle heavy impact.

## HOW IT'S MADE

Perfect combination: strong, stiff and lightweight stand up paddle boards

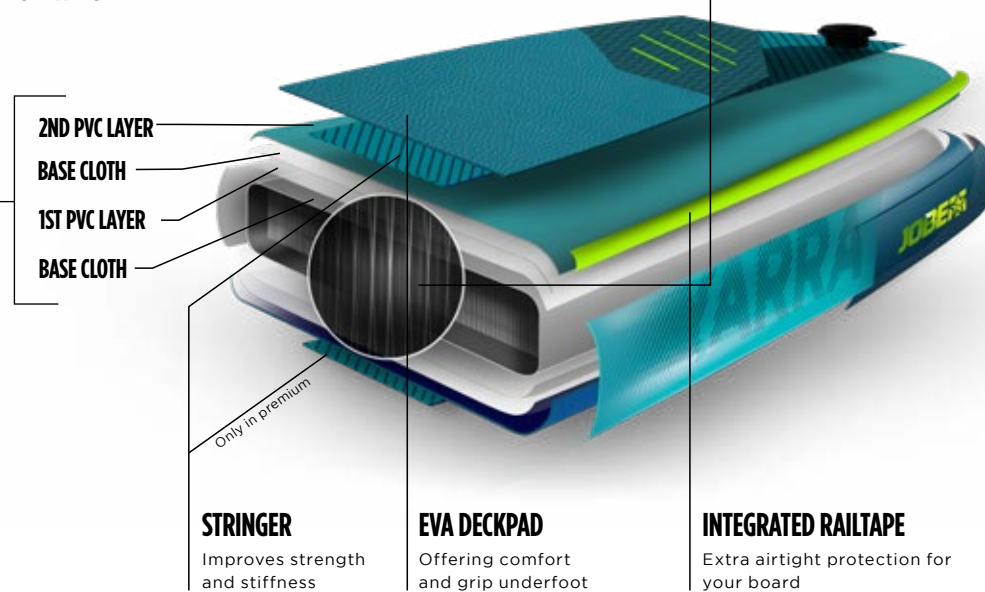

### HEAT BONDED TECHNOLOGY

Jobe inflatable Aero SUP boards are designed with your need to travel in mind. Our unique Heat Bonded Technology reduces 25% in weight and increases around 30% in stiffness when compared to the standard Double Layer technology. The inside of our Aero range consists of a high density of nylon threads, fused to a solid PVC-coated base cloth by pre-laminated heat bonded technology. This process is heat controlled and performed by machine removing all possible human errors. Two layers of drop stitch reinforcements protects and strengthens Jobe boards to its max. All processes together, make a Jobe board glide through the water like a hot knife through butter. It makes an inflatable 2 kilo lighter. It also makes it stiffer, stronger, extremely airtight and most importantly: super durable. As for making it more easy to take your SUP anywhere: all boards come in a waterproof backpack, so you can pack your gear and discover the world!

### X-STITCHING

Instead of the nylon threads being individually and vertically stitched, this technology makes use of one long nylon thread which is X-stitched, between the double PVC layers. From the top part to the bottom part. The result? A top-down stronger and lighter board.

LIGHTWEIGHT	<div><div></div></div>	<div><div></div></div>	<div><div></div></div>

### EZ LOCK FIN

The easy lock-in fin is the newest feature in all Jobe inflatable paddle boards. The most easy and secure fin ever! Simply click the fin in your SUP and secure it by pressing down the lock. No tools needed! It's as easy as can be.

AERO YAMA SUP BOARD 8.6 PACKAGE

# FORM MEETS FUNCTION

## DOCKING RING

With the integrated docking ring you can easily connect your SUP to anything.

## TIP & TAIL HANDLE

Integrated handles on the tip and tail, making it easier to get your SUP out of the water.

## DOUBLE STRINGERS

A stringer on the top and bottom of the board for extra stiffness and strength, this also supports the rocker of the board making sure the SUP keeps its shape.

## STORAGE CORD

Our storage cord is integrated in the design, creating more room to store your gear when you're out on the water.

## RAILTAPE

This railtape is placed over the seems of the board creating a more durable board which guarantees the best airtightness.

## CARRY HANDLE

A comfortable neoprene padded handle to easily carry your SUP around.

## EVA DECK

A large EVA deckpad gives you a comfortable surface to stand on all day long, while providing you with plenty of grip.

## EVA DECK GRIP

The back of our deckpad has diamond pattern for added grip to initiate fast turning.

## LEASH RING

Our leash ring is integrated with the deckpad, making it sturdy and creating a clean look.

## EZ LOCK FIN

The most easy to use and secure fin ever! Easily click this fin in and secure it by pressing down the lock, it's as easy as can be.

# PREMIUM QUALITY

When you buy a SUP from our Premium Aero Range, you can expect something extra! The Premium Range comes with extra features which are unique to this collection, making it the best of the best!

## WIDER AND LONGER DECKPAD

The Premium Aero Range comes with an extra wide deckpad, this gives you more freedom of movement on the SUP and gives you added room to take someone along for the ride. The center part is covered with soft EVA for a comfortable ride and the back of our deckpad has diamond pattern for added grip to initiate fast turning.

## TIP AND TAIL HANDLES

We take user-friendliness seriously and a tip and tail handle make this product that much easier to get out of the water. The tip and tail handles are smoothly integrated into the design of the SUP board. We have used a neoprene pad on the inside of the handle for a comfortable grip.

## UPGRADED PADDLE

Our Premium SUP boards come with a lighter, stiffer and better paddle; a fiberglass paddle with 20% carbon elements. It's three-piece adjustable making it easy to carry with you or store in a (SUP)bag. Our Anti Twist System on the paddle puts an end to additional forces by locking your adjustable system.

## DOUBLE STRINGER

Jobe was ahead of the game with 1 stringer on the board but now we are adding another stringer on the bottom of the SUP. This makes for more stiffness and keeps a better rocker shape in the board. The double stringers are placed for extra stiffness and more control, this also supports the rocker of the board making sure the SUP keeps its shape.

Coiled leash • Adjustable fiberglass 3-piece paddle with 20% carbon • Waterproof backpack • 3 year warranty after registration

### TAKE YOUR SUP ADVENTURES TO THE NEXT LEVEL

Go beyond your limits and explore the world with the newest Electric SUP: the E-Duna. Make your life easier by using the integrated electric pump that inflates the SUP for you. After that you can hit the water and use the cruising assist up to 3 hours with the speed of 2 knots. Easily control the speed of your motor with the remote attached to your paddle. You can make longer trips or use the extra help from the motor to paddle against the stream when the wind gets stronger. Perfect for any type of adventure!

### BRINGING TECH TO ENHANCE YOUR SUP EXPERIENCE

The new E-Duna features a Jet engine to support you on longer SUP tours and on windy days. This engine sucks up the water and a internal fan blows out the water. This makes for a jet propelled forward thrust, supporting you on your SUP tour in every condition.

### AERO E-DUNA SUP BOARD 11.6 PACKAGE

Package 488821002

E-Duna remote  
The E-Duna remote is attached to your paddle to control the speed of the motor

## BAMBOO SUP BOARD CONSTRUCTION AND INNOVATION

### EVA COMFORT DECKPAD

Experience increased comfort on our bamboo beauties so you can focus on what really matters: discovering Mother Nature.

### EPOXY COATING

This year, we are introducing a new paint technique on the rail of our SUPs with EPOXY. As a result the paint is not a layer on top of the SUP, but the colors are intergrated into the EPOXY. Creating a metallic finish for a clean look which is durable as well!

### CLICK & GO

Our bamboo beauties have unique click fins to make sure you are on the water in no-time. No tools and never worrying about losing your fin screw again.

## KEY FEATURES

- **LIGHTWEIGHT** boards because of the lightweight EPS core
- **CHANNELS** more tracking on the water
- **REAL BAMBOO VENEER** blended with glassfiber means great looks
- **RAILSAVERS INCLUDED** to protect the edges of your board
- **EVA FOAM DIAMOND SHAPE** for more grip and comfort
- **CLICK FIN INCLUDED** no screws needed
- **GLOSSY TOP FINISH**

The image displays three views of the JOBEK 9.4 SUP. The top view shows a dark blue deck with a central wooden section, orange lacing, and a black fin box. The bottom view shows the dark blue underside with the 'JOBEK 9.4' branding in orange and blue. The side view shows the dark blue hull with a curved bottom and a black fin.

## JOBE'S PERFECT FIT

Jobe watersports life vests and buoyancy aid vests have a better fit than ever: Jobe's Perfect Fit. The fit of every Jobe vest is based on scientific research (conducted by TNO, 2015), where people of all sizes and ages were measured and weighted to determine the optimal size for every body type. We took these measures to extend our size range. Every vest is then tested by an official certified institution to make sure it meets the highest quality, comfort and safety standards.

## ATHLETIC

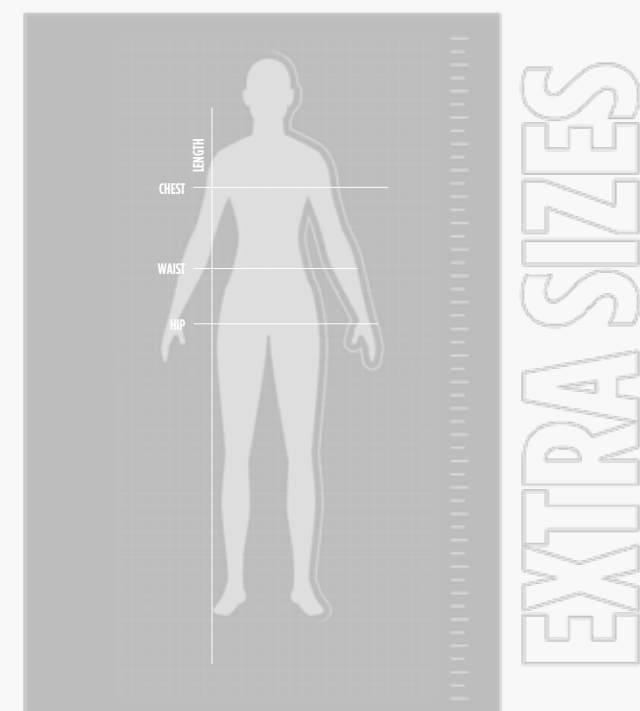

## MEN'S LIFE VESTS

Whether you follow an athlete's footsteps and are looking for a vest to match an athletic body type, or are looking for a vest to match a leisure body type because you enjoy the pleasures of life; there's always a vest with the right fit for every man and every body out there. Find yours in our extended size range now.

## WOMEN'S LIFE VESTS

A size for every body! This is where our Perfect Fit shines. Extra sizes in our women vest size range are added after scientific research determined new sizes to go with each female body type. This resulted in smaller steps between every size. Now curvy body types can find their perfect match, but their flatter and thinner counterparts can also find a perfect vest.

# CHOOSE YOUR PERFECT VEST

Comfort and safety come together in Jobe's unique vest range. How to choose? Choosing your perfect vest comes down to deciding for what purpose or watersport you want to use the vest and the corresponding level of comfort. Wakeboarding or slalom skiing demands a higher level of comfort and flexibility than laying on a tube. This corresponds to the amount of split foam panels on the vest.

Rule-of-thumb: the more split foam panels, the more flexibility, comfort and freedom of movement your vest has. All Jobe vests have a minimum of 50N buoyancy and are ISO-certified. We also have 100N vests that are officially ISO-certified. They have even more buoyancy!

## THE JOBE FRAGMENT VEST

Our first ever comp-like vest with a 50N buoyancy! Supreme comfort with flexible materials combined with strategically cut foam panels that give your body complete freedom of movement. A vigorous vest to step up your game.

## FOR ALL WATERSPORTS

With a Jobe wetsuit you can enjoy watersports all year long! The thickness of the neoprene and the length of the suit, construction of the seams, and the thermo lining determines the warmth of a wetsuit. Jobe wetsuits go from 1.5mm neoprene to 5/3mm neoprene with thermo lining. 5/3 means that we use 5mm neoprene on the torso and 3mm on the arms and legs.

Jobe has developed all wetsuits by using specic ergonomic panels for optimal freedom of movement and comfort by each design. For optimal use during watersport.

Also this year's collection is carefully designed with fresh new colors, exciting new prints and bright details. Every individual Jobe wetsuit matches with a vest, board, tube or ski.

**Mix and find your perfect Match!**

## NEW D3O SHINPROTECTOR

When you're out on a jet ski, you want your wetsuit to protect you - aside from keeping you warm. With the new innovative panels in our Detroit fullsuit 3/2mm and Toronto Long John 2mm you get that extra protection with help of the durable D3O material.

The original D3O panel is redesigned into 2 seperate panels to extend the area of protection and increase the comfortability. The level of protection is created by integrating the D3O panel at the knee area. The second panel for the shin area is made of D3O LITE and was expended in the design fase so it would cover a larger surface. D3O LITE is a range of soft, lightweight foams that offer enhanced cushioning and long-term comfort.

## LIMESTONE

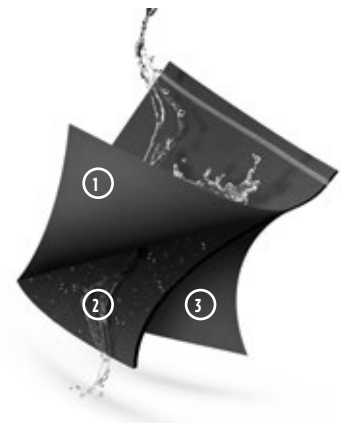

At Jobe Sports, we use a Limestone based neoprene a kind of neoprene which comes with lots of benets. It's lighter, it tends to soak up less water. It's warmer, limestone has better isolation qualities. It has more ex, We combine this with the limestone neoprene which is more flexible and offers great freedom of movement for the ultimate watersports experience. It's more durable, what also makes a limestone wetsuit more durable is that this fabric is more resistant to tearing then oil-based wetsuits. It's more ECO-friendly, limestone neoprene is more durable so you don't have to replace it as fast, which is the rest of the main reasons it's more eco-friendly. The second reason is the resource itself, which is less harmful to the environment, making it a more eco-friendly product.

# WHAT WE'RE MADE OF

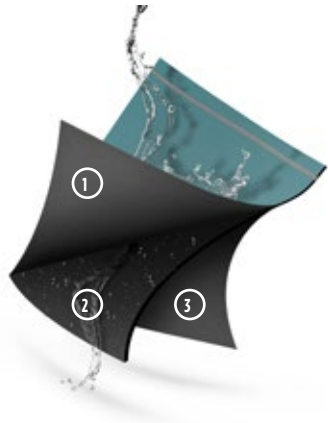

We demand only the best neoprene for our wetsuits. Neoprene is the most important determinant of stretch and because we believe you should comfortably perform water sports, Jobe wetsuits all have a good level of stretch. Enjoy the comfort and flexibility of how we incorporate stretch in our wetsuits.

## REGULAR STRETCH

- 1. Polyester top layer
- 2. Polyester bottom layer
- 3. Cr foam for a comfortable feeling

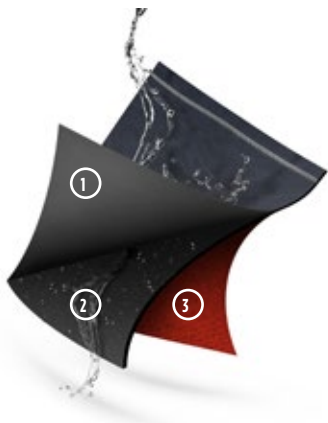

## REGULAR STRETCH

## FULL STRETCH

- 1. Polyester top layer for excellent stretch, a smooth feeling and a soft touch
- 2. Stretch polyester bottom layer
- 3. Scr foam for a comfortable feeling

## FULL STRETCH

## SUPREME STRETCH

- 1. Stretch polyester top layer for excellent stretch, a smooth feeling and a soft touch
- 2. Stretch polyester bottom layer with a thermo finish
- 3. Cr foam for a comfortable feeling and extra stretch

## SUPREME STRETCH

# FILLED WITH FEATURES & TECHNIQUES

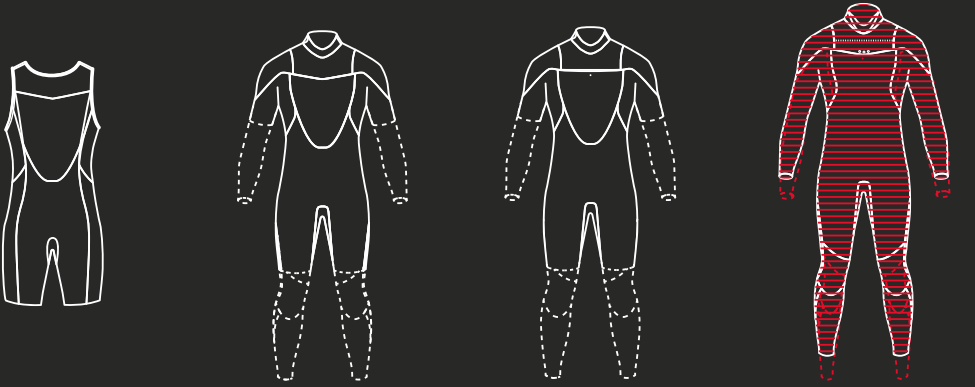

A wetsuit protects your body & keeps your body warm in the water. Jobe wetsuits are produced from the highest quality neoprene. As a result, the overall level of stretch is much higher than normally used. On top of that all wetsuits are developed with specific ergonomic panels for optimal freedom of movement and comfort in each design. But it doesn't stop there; we also use drainage thermo inner lining in our steamers to keep you optimal warm. This technique quickly drains the cold water and keeps your body heat. Also we have strengthened our seams to ensure durability use.

Discover your perfect Jobe wetsuit that matches the level of stretch and warmth you need!

# CHOOSE YOUR WETSUIT

Choosing your wetsuits is dependent on the water temperature and the type of water sports you want to perform. Wakeboarding or slalom skiing demands a higher level of stretch than laying on a tube. Therefore you want to look for the level of stretch in a wetsuit. Besides that, a chest zip gives more flexibility to the wetsuit, while a back zip means the wetsuit is easier to put on. Knowing the temperature of the water is very important. Colder temperatures require more high end wetsuits like our steamers that use a lot of techniques to keep you warm. Enjoying a tubing day in the summer? Then look for a shorty wetsuit instead.

1.5MM

2MM

3/2MM

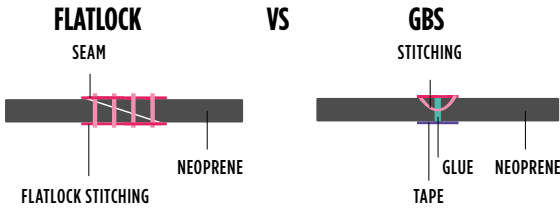

5/3MM

## WATER TEMPERATURE

# STITCHING TECHNIQUES

The stitching of the seams is an important determinant of the warmth and flexibility of the wetsuit. Flatlock stitching is most common and it is a super durable technique. Flatlock stitching perforates the neoprene which means water might still enter the wetsuit. Therefore we use the GBS technique in our high end wetsuits to give extra flexibility and that are meant to keep you warm. GBS stands for glued and blind stitched. The neoprene is first glued and afterwards it's stitched. The stitching is only down half through so it doesn't perforates the neoprene. Water does not enter the wetsuit that way and that is what you want in cold water temperatures.

# MULTI POSITION BOARDS

AN UNLIMITED AMOUNT OF FUN IN JUST ONE BOARD.

HOW TO CHOOSE 159

MULTI POSITION BOARDS 160

ACCESSORIES 161

## MEET THE JOBE MULTIPOSITION BOARDS

CHIPPER

### POSITIONS

5 Positions

Lay down, kneel basic, kneel advanced, stand sideways, stand straight

STIMMEL

### POSITIONS

6 Positions

Lay down, kneel basic, kneel advanced, surf, stand sideways, stand straight

OMNIA

### POSITIONS

6 Positions

Lay down, kneel basic, kneel advanced, surf, stand sideways, stand straight

### UNIQUE TOW POINT AND INTEGRATED SIDE HANDLES

Place your handle in this unique tow hook point, which will ensure an easy start and will give a tubing-like and playful feeling. You can hold on tight using the handles which we've placed on all of our multiposition boards.

### ROTOMOLDED

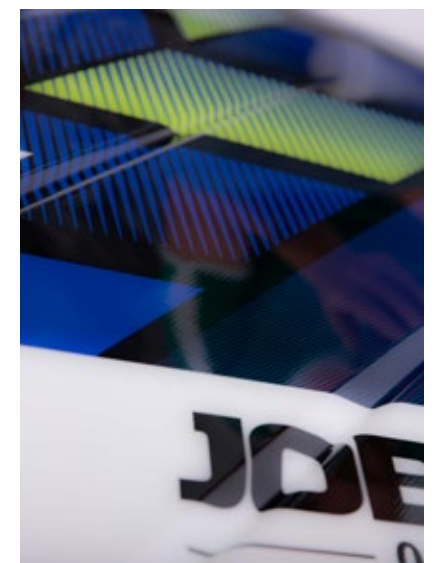

Our Stimmel & Chipper are roto molded models, which makes both boards super strong and durable

VS.

### COMPRESSION MOLDED

Our Omnia board is compression molded out of PU foam and fiberglass which makes the product strong, thin and light resulting in an more playfulness and responsive board.

DISCOVER THE DIFFERENT WATERSPORTS POSITIONS OF THE OMNIA & STIMMEL & CHIPPER

Turn, twist and jump: everything's possible with the Jobe multipostion boards. You can use it to water ski, kneeboard, lay down and ride like a towable, wakeboard, wakesurf and sit on it. Find your position and go play!

# KNEEBOARDS

THESE DO THE TRICK.

HOW TO CHOOSE

163

KNEEBOARDS

164

ACCESSORIES

167

## CHOOSE YOUR KNEEBOARD

**STREAK**

With the Streak we created a durable entry-level board which offers a fast learning curve. Molded fins give more grip and add to the response of the board, making it perfect for progressing on it.

**SENTRY**

A twin tip kneeboard which is perfect for beginners. The Sentry has a shape and base which is designed to give a more forgiving feel, while it's twin outline allows you to play around.

**PROPHECY**

Your entry way to a wide range of tricks! A light and stable board due to its foam core combined with a wide outline. This makes the Prophecy a playful board which is perfect for learning tricks.

**STAGE**

Our high-end kneeboard with an advanced core. The hybrid core in this board makes the Stage our lightest board whilst ensuring the best response. For those who demand nothing but the best!

### EASY START

Both the Streak and Sentry feature an integrated tow hook which make an easy start possible.

### ROTO MOLDED VS COMPRESSION MOLDED

The streak and Sentry boards are produced using rotomolded foam injection, this give the boards extra buoyancy and durability. Our high end kneeboards are made using compression molding. The high-press core is covered in Tri-tech fiberglass to produce an light and thin board ensuring an strong product with the best response and playfulness.

## CHOOSE YOUR WATERSKI

Choosing your ski depends on your skill level and consequently its maneuverability. Combo skis come as a pair and are great to learn the sport. Start with a pair to learn how to water ski and progress to a single ski to perform your first slalom sessions. Ready to advance? Increase your skills with a dedicated slalom ski. Tip: the wider the tip & tail, the easier the start. The narrower, the better the maneuverability. Select your performance ski now!

ADVANCED

### OUTLINES

Our ski's come with a tapered outline, ensuring the best time out on the water! A wide nose which runs narrow towards the tail of the ski give the ski it's floating capabilities and make sure the nose of your ski doesn't dive underwater. Add some extra rocker in the nose of your ski and you've got yourself one of the best pieces of watersports gear out there.

### TOE STRAP

The extra molded overlay adds more durability which is usefull when you let go of your combo ski to continue slalom skiing.

### TECHNOLOGY

Our range of ski's come with the best tech to ensure the best ride. The outline might give the ski's their floatation but the tech on the inside make for the dampening and response. A rim injection combined with metal rods for better response, bright fins for visibility, V-bottom for better traction and that's just the tip of the iceberg!

HIGH-END SLALOM SKI

The Encore slalom ski and his townend down brother the Baron are designed for the real fanatics. Having a 3-end flex pattern ensures maximum stiffness when and where you need it. Combined with the narrower tail this will give you the ability to initiate turns faster and easier. Integrate this with an edge to edge concave to maintain maximum speed and control.

What defines the Encore slalom ski is its fully carbon layup that gives extra stiffness and improved response. Together with a competition tail makes this ski the most advanced slalom ski that brings your skills to the highest level.

bags 196  
other accessories 196

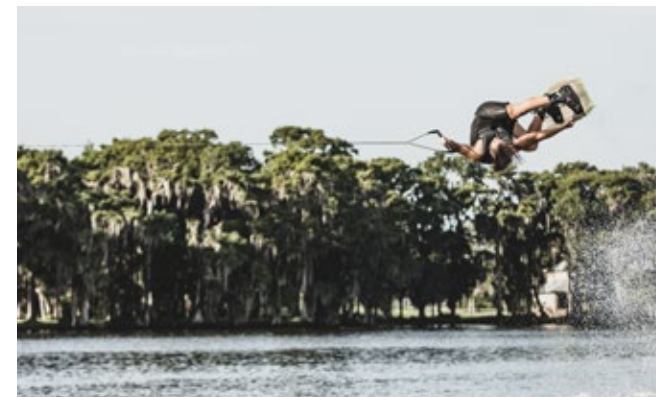

## INNOVATION IS WHAT DRIVES US

For 2021, we raised the bar in every aspect of wakeboarding, from the boards we create to the riders who ride them. Its innovation which drove us to create a carefully curated collection which provides the best experience out on the water. Working closely with our R&D team and athletes, we've created new constructions which all result in improving your ride on the water.

## WORLD CLASS RIDING, TONY IACONNI

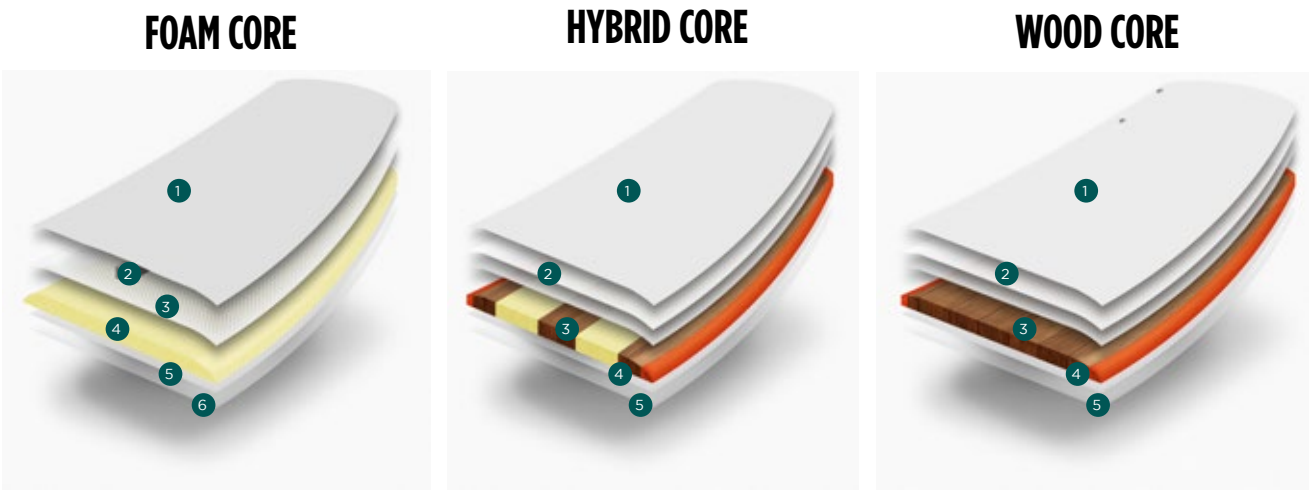

When it comes to wakeboarding, we envisioned to create a team which represents what we as a brand stand for: to get people on the water. And with our newest addition of Tony Iacconi, we've attracted the best of the best in the wakeboard business. This makes for a group of talented riders, who dominate the competitions and who are out there getting people on the water everyday!

# WAKEBOARD CONSTRUCTION

2021 has seen the birth of a next-level generation in our product development. For this year, we raised the bar which resulted in state-of-the-art constructions for the best ride possible.

### FUNCTIONAL AND RELIABLE

Used in: Maddox, Prolix, Vanity, Logo & Jinx

- 1. Topsheet
- 2. Stringer
- 3. Fiberglass lay-up
- 4. **Foam core**
- 5. Fiberglass lay-up
- 6. Base

### FOAM CORE

Foam is a lightweight material which absorbs the blows from a landing and makes for higher jumps due to the reduced weight.

### THE ULTIMATE MATCH OF FLEX AND STRENGTH

Used in: Conflict, Breach and Knox

- 1. Topsheet
- 2. Fiberglass lay-up
- 3. **Hybrid core**
- 4. Fiberglass lay-up
- 5. Base

### HYBRID CORE

A combination of PU foam and wood core for unmatched performance. This makes for a lightweight board with a nice soft flex, the best of both worlds!

### DURABLE AND FLEXIBLE

Used in: Reload and Concord

- 1. Topsheet
- 2. Fiberglass lay-up
- 3. **Wood core**
- 4. Fiberglass lay-up
- 5. Base

### WOOD CORE

A paulownia full wood core is a durable core with a lot of flex. The core itself can take a beating making it really durable, whilst giving a forgiving and predictable flex pattern for obstacles.

# WAKEBOARD LINE-UP

### BREACH

Only the best! Jobe's most responsive board with an aggressive pop and unmatched grip due to it's Carbon back bone technology and deep channels.

### KNOX

The new honeycomb carbon plate underneath the bindings make for a responsive ride! Combine this with a triple concave and channels, making this our best version to date.

### CONFLICT

The Conflict has been our flagship model for years due to it's progressive construction for added stiffness.

### CONCORD (PARK)

The Concord has been a long time favorite amongst parkrats, a heavy-duty construction give the board durability and and insane flex which will have everyone cheering.

### RELOAD (PARK)

Flex, smooth surface and available in a large size! The Reload has it all and knows no boundaries, making this our most flexible cable board to date.

### MADDOX

Pro rider level, made accessible! Designed for pro riders with deep channels for an unmatched grip but it has the capabilities to help every rider progress.

### PROLIX

A smooth ride for the intermediate boat rider combining a moderate traction with great control all while it's rolled edges provide durability.

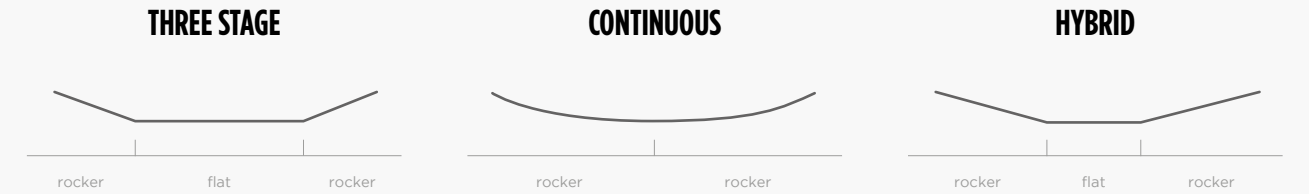

### VANITY

The Vanity is the board for the intermediate boat rider who wants to progress, it's molded fins make for traction and control while a narrow outline give it responsiveness and speed.

### LOGO SERIES

The logo is the board for making your first turns! It comes with molded fins and a removable center fin for great grip, while using it's double concave for a smooth ride.

# ROCKERS

Looking for aggressive pop and an easy lock? Three-stage is the way to go. A shape which gives a competitive edge to your board.

This rocker is great for beginners. The shape gives you a relaxed feel and most speed on the water.

This rocker is the best of both worlds. It combines the speed of a continuous rocker with the aggressive pop of a three stage rocker.

**SIZE** 138 142

FEATURES

High-press core • 4 Nylon removable fins • Deep grooved channels: More aggressive and max loading before the pop • 3-stage rocker • Tri-Tech fiberglass

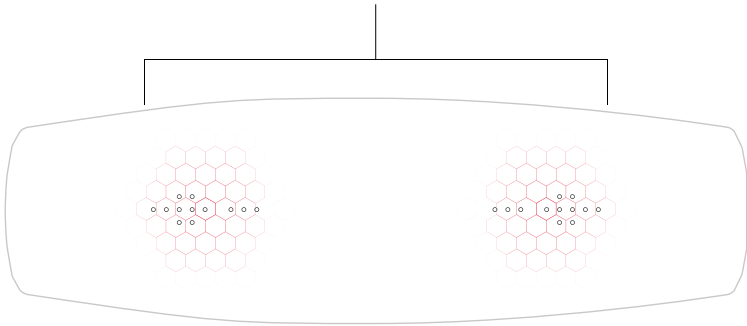

KNOX WAKEBOARD

Item 272521010

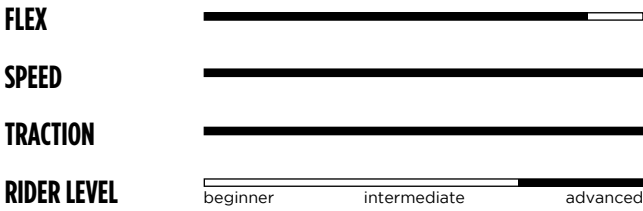

HONEYCOMB CARBON PLATES

NEW! The new 2021 Knox is equipped with our new Honeycomb Carbon Plates! We strategically placed two carbon plates with honeycomb structure underneath the bindings which improves the underfoot response of the board and adds dampening to the board for landings. Its hybrid core is made from a blend of Pauwlonia wood and PU foam, which makes the board lightweight. This all resulted in one of our top boards, which just became even better!

PRICE  
€ 499,99 • £ 449,99

SIZE 139 143

FEATURES  
The next gen Knox: 275 grams lighter, more response and direct feel with the carbon infused Layup • Hybrid core • Speed sheets - Honey comb carbon speed sheets to give a direct response and feel of the board • Impact rails • H.I.T. -base • 4 Nylon removable fins • Deep grooved channels • Overall flex construction • 3-stage rocker • Tri-Tech fiberglass

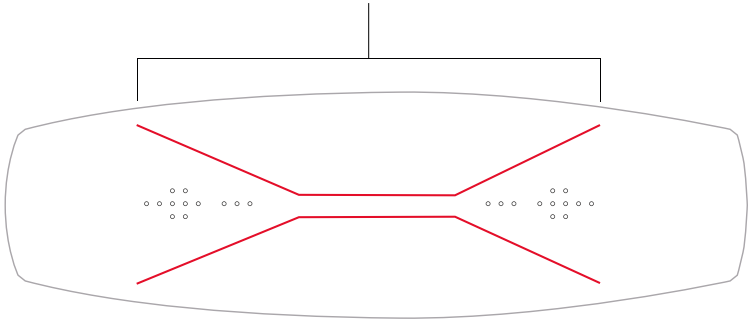

BREACH WAKEBOARD

Item 272521008

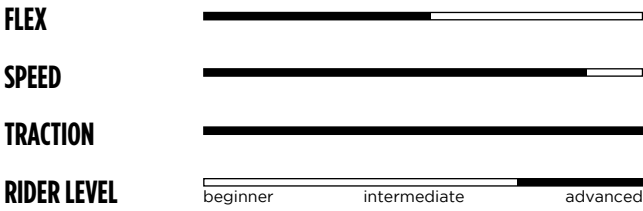

CARBON BACKBONE TECHNOLOGY

NEW! The Breach features our new Backbone Technology! Which sheds a whopping 600 milligrams of the board to make the board faster, lighter and give it more response. Carbon V-stringers in the tip and tail of the board, give more torsional stiffness for a better response. The added carbon rods in the center stiffens up the board, preventing chatter, give an explosive pop and softens landings. This results in Jobe's most advanced board to date!

PRICE  
€ 499,99 • £ 449,99

SIZE 139 143

FEATURES  
The next gen Breach: 600 grams lighter and loaded with innovations and high tech carbon! • Hybrid Core • BackBone Tech: Innovative high tech advanced placing of carbon rods to boost board feel, response and add center stiffness • Concave tip and tail for clean take offs and soft landings • HIT-base • 4 Nylon removable fins • Deep grooved channels for max load and most grip • Tip and tail flex construction giving you the flex where needed • 3-stage rocker • Tri-Tech fiberglass

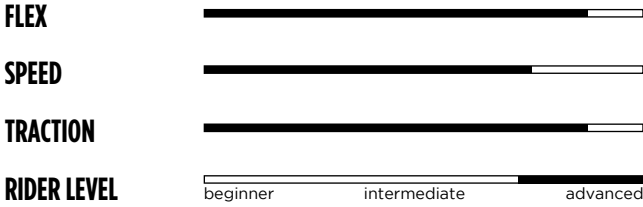

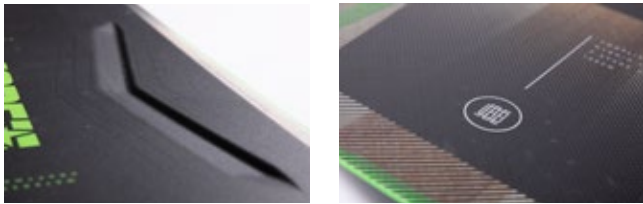

CONFLICT WAKEBOARD

Item 272521001

PRICE

# ***WAKESURFERS & WAKESKATES***

**FOR THRILL SEEKERS.**

**HOW TO CHOOSE** 198

**WAKESURFERS** 200

**WAKESKATES** 203

# CHOOSE YOUR WAKESURFER

Style is a personal thing and the way you approach wakesurfing can differ per person. Which is why we made surfers for different styles of riding, making sure there's something for everyone!

## SKIM STYLE

Short and subtle, our skim surfers are for the advanced rider who wants to rip and spin around on the wake! Skim surfers are perfect for doing tricks due to their smaller size.

## HYBRID STYLE

Turns out: you can have your cake and eat it too. Our hybrid wakesurfers are made to do it all, big enough for floatation and a surfy feel while having the right size to bust out a trick on the wake.

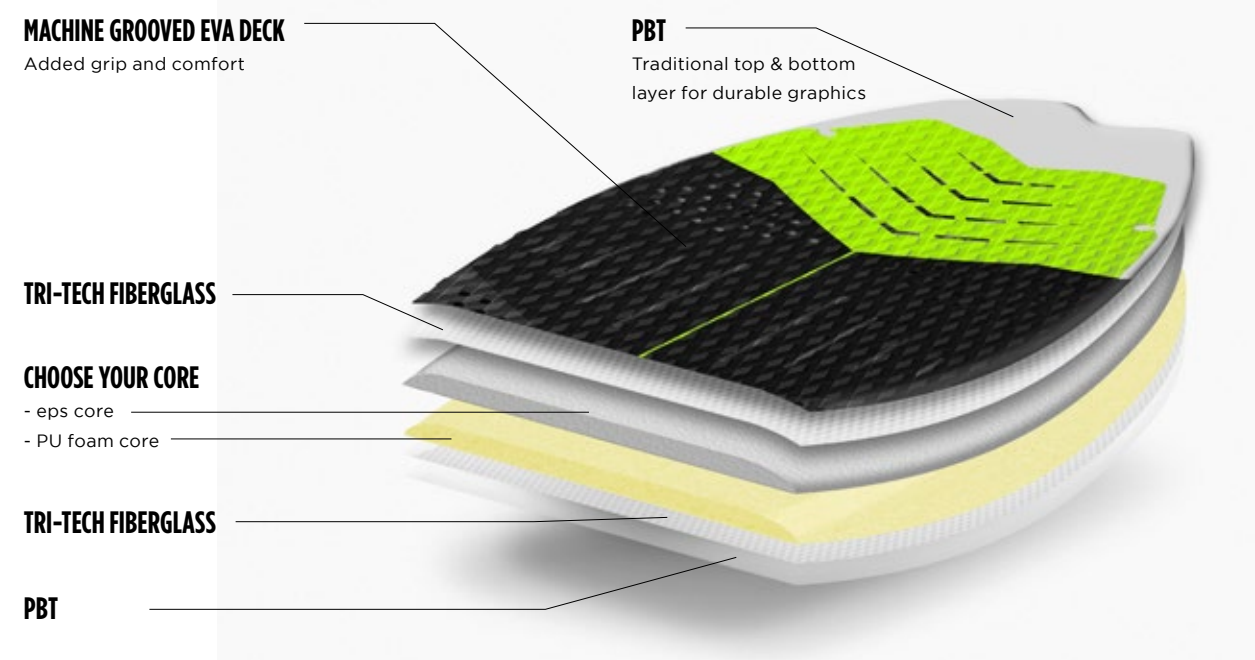

## SURF STYLE

Summer surf days are what it's all about! Jobe Surf wakesurfers are perfect for people who just want to cruise and ride that endless wave, whether you're a beginner or advanced: everyone loves a good surf!

# #LIFEATJOBE

# BRABUS

SHADOW COLLECTION

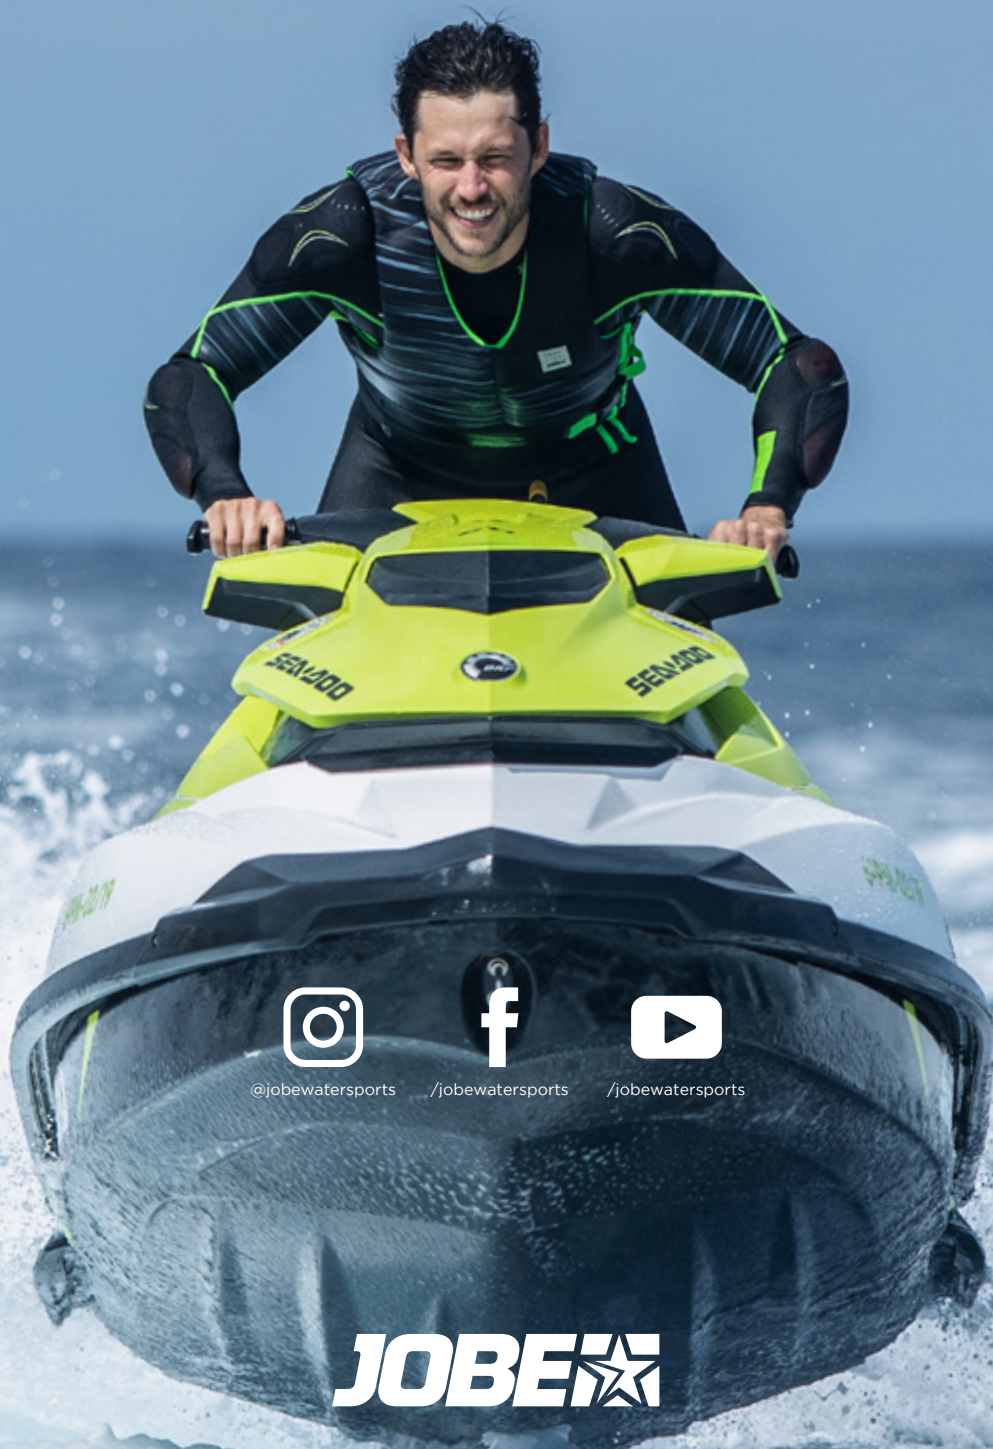

In 2020, Jobe kicked off a collaboration with one of the biggest names in the automotive industry: BRABUS. To celebrate their new range of boats, we joined forces to create a luxurious limited edition collection which is unique to the watersports industry: The Shadow collection.

This new collection combines Jobe's craftsmanship with the intricate details from BRABUS. Which resulted in a historic watersports collaboration and high-end collection.
